Re: In the Matter of Freeport LNG Expansion, L.P. et al.
FE Docket No. 21-98-LNG
Application for Long-Term Authorization to Export Liquefied Natural Gas to
Non-Free Trade Agreement Nations

Dear Ms. Sweeney,

I hereby write to support the request in the above referenced docket of Freeport LNG
Expansion, L.P., FLNG Liquefaction, LLC, FLNG Liquefaction 2, LLC and FLNG
Liquefaction 3, LLC (collectively "Freeport LNG") to the U.S. Department of Energy to
increase export capacity at their LNG Liquefaction and Export Terminal in Brazoria County,
Texas.

LNG exports have and will continue to stabilize U.S. natural gas production, which in turn
generates billions of dollars in new investments, benefiting local communities, producing
tax revenues and creating jobs. Moreover, LNG exports are key to national and
international efforts to reduce emissions, with global facilities investing billions in low-
carbon and no-carbon solutions. Internationally, LNG exports support our allies' efforts to
reach net-zero emissions, allowing them to generate electricity with natural gas versus
higher-emitting energy sources.

For these reasons, we hereby support Freeport LNG's export capacity increase request
and ask that you move quickly to grant such request, as local, national and global
communities stand to greatly benefit from the approval of Freeport LNG's application.
Thank you for your consideration.

Sincerely,

Judson W. Robinson III
